

OSPTI
Speech Therapy Questionnaire

Describe the child's speech or language problem.

How does the child usually communicate (gestures, words, phrases, sentences, PECS, sign language, etc.)?

When was the problem first noticed? By whom?

How has the problem changed since it was first noticed?

Is the child aware of the problem? If yes, how does he/she feel about it?

Have any other speech-language pathologists seen this child? Who and when? What were their conclusions or suggestions?

Have any other specialists (physicians, psychologists, special education teachers, etc.) seen this child? If yes, indicate the type of specialist, when the child was seen, and the specialist's conclusions or suggestions.

Are there any speech, language, or hearing problems in your family? If yes, please describe.
